MARATABA MOUNTAIN LODGE

On 1 June 2018, Marataba Trails Lodge will become Marataba Mountain Lodge. The essence of this exclusive retreat is its location. We have realised it is simply too special to keep from those looking for a more traditional safari experience, without the trails that originally defined the lodge's offering. As part of this shift, Marataba Trails is launching as a stand-alone, specialist hiking experience, available to guests of both Marataba Safari Lodge and Marataba Mountain Lodge.
