A safari is not only about the animals. It is also about simply being in a perfect natural environment, and connecting to something far greater than yourself. We know that there is no better place to feel this connection than in a Treehouse amid wild open plains.

We are excited to introduce our Thabametsi Treehouse - the newest addition to the MORE Treehouse Experiences. Separate from the lodge, Thabametsi affords complete privacy, yet is close enough for efficient service. Its 6m-long Martini Step deck is the perfect place to enjoy an infinite view over the Marakele's verdant expanse - perhaps with a chilled sundowner.

Thabametsi is also our most impressive treehouse yet - solar powered and built on two levels, with a bedroom, full shower room facilities, and dining and lounge areas.
