## OUR FAMILY WELCOMES YOU

Robert, Britt, Mack and Madi

As parents to twins, Mack and Madi, I and my late wife Britt (partner in life and in MORE) learned what it means to travel as a family. Africa is a new world for children – filled with colourful people, marvellous attractions, and curious animals – the stuff of storybooks and dreams come true.

To discover it together is pure magic ...reconnecting loved ones with each other (tech and work forgotten) and the 'wonder-fullness' of life. In this spirit, MORE brings you our Mack & Madi experience, giving families every freedom to enjoy these precious moments to the fullest.

## MACK & MADI CREW

Parents can relax assured that our team of dedicated childminders will look after their children like they were their own. Each minder has been specifically chosen as much for their nurturing aptitude as for their credentials, including first-aid training (just in case).

Facilitating both curiosity and safety, our minders allow kids (3 to 11 years) to wander – but not too far, and for little ones (0 to 2 years), they provide babysitting – more like a play date. Youngsters (12 to 16) may well choose to get in on the excitement, too.

## MACK & MADI KIDS' PROGRAMME

Between family game drives and outings, the fun continues with our Mack & Madi Kids' Programme – parents can join in, but will likely be told: “No adults allowed!” We know every child is unique – and shy or outgoing, creative, sporty or adventurous, we promise them the time of their lives. Activities and excursions encourage kids to discover and learn, create and express themselves, and keep them entertained (i.e. out of mischief).

There is everything from animal 'spoor' tracking, flying fox slides and camp outs, to cookie baking, rock painting and dress-up plays to get excited about, before settling down for cinema under the stars.

At Madikwe's Eco House and Marataba's Eco Garden, we often see youngsters disconnecting from the digital sphere as they become engaged with the many fascinations of nature's ecosystem.

Beyond the lodges and hotels, community tours and visits with local children introduce them to new and exciting cultures and languages, making their worlds much larger.

Our lodges and hotels are places for loved ones to come together, kept stress free with every comfort and convenience provided.

Each family-sized villa, suite and room includes a second children's bedroom, giving them (and parents) their own space – just like home, only better! All are en-suite and perfectly kitted out for kids, with natural bath products, gown and slipper sets, toys and games, bedside hot-chocolate mugs, and storybooks put onto their pillows.

## SHARING A MEAL TOGETHER

Meal times are as anticipated as the activities and bring everyone around the dining table/boma fire/picnic basket/bush buffet. Food is familiar (and sometimes adventurous) with many choices for picky eaters – our chefs can prepare dishes to tempt any appetite and no one goes hungry!

All meals are delicious – minimising refined sugar and preservatives, but never skimping on flavour, and sneaking in plenty of fresh fruit and veg.

But there are also treats... tuck into burgers during an outdoor movie, cosy up to toast marshmallows on the fire, or sip hot chocolate in bed.
