Please note: all off-property activities include hotel transfers, and are weather dependent

Weather

- Hot summers from September to April, and mild winters from May to August
- During summer, daytime high temperatures average 30°C/86°F, while night-time lows seldom drop below 14°C/57°F
- The summer rains wash through the area between November and March, and dramatic thunderstorms may light up your afternoons
- During winter, daytime high temperatures average 20°C/68°F, while night-time lows average a chilly 8°C/46°F
- Winter is the dry season, and days are usually clear and sunny

Best Time to Travel

- A year-round travel destination, with hot summers and mild winters
- February to May: last months of the rainy season, when the falls have their highest flow and are at their most impressive
- June to August: warm days and cool evenings, with little to no rain, but plenty of water still flows over the falls
- October to November: dry months, when the falls are at their lowest – but without the dense spray from the falls, visitors are afforded a clear view
- Water flow over Zimbabwe's side of the falls is permanent, but the flow volume changes according to the seasons
